Concepting/Prototyping	
Designpatterns (Storyboarding, Personas, Walkthroughs)	
Information Architecture	

SOFTWARE EXPERIENCE

Office	GH Tester
Familiar with Apple Mac/ OS	Tibco Designer
Windows	Tibco Administrator
Adobe Illustrator	Rational ClearCase
Adobe InDesign	Rational ClearQuest
Adobe Photoshop	Mercury Quality Center
Adobe Flash	TOAD
Adobe Dreamweaver	Familiar with Linux/Unix

PROFESSIONAL HISTORY

January 2009 – present: Test analyst for Ziggo.

March 2008 - August 2008: Test analyst for the ICTU as part of the Overheids Diensten Platform (SOA). Execution of the functional acceptance test, defining the testplan, exploratory tests, intake testware, execution of my own dynamic test set, preparation and installation of the testing environment.

March 2007 - February 2008: Test engineer for KPN on the Bitstream project. Testing of a front-end application through the GUI, testing of the databasetool and the helpdesk flow. After a short period, where I did coordination and knowledge transfer, everything was handed over to the outsourcing partner from India.

November 2005 - January 2007: Test analyst for Atos Origin as part of the EAI testteam for KPN (SOA). Testpreparations (planning defining cases), execution of the cases, test reports and automated testing.

2004 - September 2005: Freelance webdesigner, interaction designer stichting Open Culture and Aquent. Responsible for the creation of new visual designs and implementation in html and css.

2004: Internship Webkracht BV, Rotterdam. Interaction design, mostly GUI design. Front-end webdevelopment, design documents.

2002 - 2003: Internship VARA omroepvereniging (broadcaster) new media department, Hilversum. Interaction design. Functional descriptions, design documents, information architecture and interaction analyses. Including short period freelance work.

2002 - present: Freelance graphic/ interaction designer. Interface design, functional descriptions, design documents, webdesign, corporate identity development.
